SUMMARY

I'm a 3rd year Computer Engineering undergraduate student at Sakarya University. I've focused to become a software developer who develops backend services and API's using Spring Framework (spring boot, spring security, spring data jpa etc.) I'm also interested in Javascript technologies like Node.js, Express and React.

EDUCATION

Sakarya University, *Computer Engineering*   2016 – 2021
I accomplished the English Preparatory Class in 2016-2017, success grade is 92/100.   Sakarya, Turkey

PROFESSIONAL EXPERIENCE

Sistaş Sayısal İletişim A.Ş., *Intern*   06/2019 – 07/2019
I completed my compulsory hardware internship on voice recording systems.   Istanbul, Turkey

LANGUAGES

English *(able to read, follow and research technical documents.)*

PROJECTS

Project Management Tool
Kanban Project Management Tool using Spring Framework(Spring Boot, Spring Security, Spring Data JPA) with JWT based Authentication and Authorization and React, Redux, MySQL .
- github.com/tayfurunal/kanban-tool

Social Network
Social Network Platform with Node.js, Express, React, MongoDB and JWT based Authentication and Authorization.
